Treatments

Relaxing Lines

A phenomenally successful treatment in massive demand. Predominately for the softening and smoothing of expression lines; i.e. frown, forehead and laughter lines.

Over a period of approximately two weeks this quick procedure will eliminate those tiresome ageing lines, leaving you refreshed, revitalized and youthful.

The ideal result softens and takes out lines, however, still leaves some natural expression. The fact that 90% of people who try this treatment, repeat it, is its own recommendation.

Dermal Fillers

Give yourself a fresh young look, without resulting to surgery. An instant, safe way to smooth out lines, restore volume and give you back the younger you, with incredible, immediate results.

Using natural products found in the skin, a series of small injections are used to smooth away feathery fine lines, lift deeper lines and support and add volume to the skin.

Appointments may be made to coincide with dental appointments so that only you need to know the reason for your visit.

Lip Enhancement & Definition

Have the look of the moment that many glamorous celebrities and fashion icons support. Luscious fullness or definition with fewer lines.

Whether you are looking for glamour or a less lipstick bleed, this treatment is for you. Using safe, natural products, specifically designed for the lip area giving extra softness and a youthful fullness.

As the lip area is particularly sensitive, local anaesthesia is offered, enabling you to have this treatment done without any unnecessary discomfort.
